TO WHOM SOEVER IT MAY CONCERN

Dear Mr. Satya,
Unique SPM Solution and Engineering

I would like to thank you for your Excellent service and the support you and your staff has shown to our company throughout the entire process right from the enquiry stage to the final commissioning of the Broaching Machine.

I would also like to say that due to your well coordinated and technically sound staff the machine was commissioned within a few hours which usually take 2-3 days as I have seen from my experience.

I would not hesitate in recommending your machine to any other company or anyone wishing to purchase a machine from you.

Best Regards,

VE Commercial Vehicles Ltd.
